Sibling discount for second or more children

5% of monthly tuition for the additional child(ren)
(Discount given on the lower fee.)

WHO WE ARE

After School Program

Bee Best Learning Center is primarily an after school academic enrichment program intended for children grades K-8th. Our after school program includes homework help, Mandarin Chinese, and additional math and English practice to help students improve their academic skills. On Fridays, students enjoy indoor games, play outside, and watch a video. If your child needs to be picked up from local Castro Valley schools, we can help coordinate transportation.

Private Tutoring and Workshops

Throughout the school year, we provide private one-on-one tutoring in a variety of school subjects, including general math, algebra, and language arts. Also, several special workshops are offered for additional fees. These workshops may include weekly chess instruction, drawing classes, math champion, LEGO building adventures, and public speaking classes.

Summer Program

We have Discovery and Technology full-day summer camps which are available in separate one-week sessions. Our objective is for students to experience continued learning during the summer weeks while also having the opportunity to engage in fun and energetic activities.

Bee Best Learning Center

20394 San Miguel Avenue
Castro Valley, CA 94546
(We are located across from the Adobe Art Center & Park and next to Alameda County fire station)

AFTER SCHOOL PROGRAM

After School Program

Homework help, Mandarin Chinese, and supplemental math and English practice are all included in our afterschool program tuition. Your child may participate in all of these programs, or you may choose any combination.

HOMEWORK HELP

Quiet class time is provided for students to work on their individual homework assignments. A teacher and teaching assistant(s) are available to answer questions and review homework for completeness.

MANDARIN CHINESE

We teach simplified Mandarin Chinese. Our goal is to provide a lively and interesting Chinese learning environment for children and to stimulate their interest in studying Chinese.

We use Mei Zhou Chinese textbook volume 1-8 from MZHY Editors Group that complies with national standards on teaching foreign languages (5C) and US standards in foreign language assessment.

The textbooks focus on phonetics, vocabulary, situation-oriented communications, and human sciences. Volumes 1-2 introduce the basic knowledge of Chinese characters and culture. Volumes 3-5 focus on strengthening the ability to read, make sentences, and look for overall themes in reading materials.

Volumes 6-8 focus on building overall communication skills with topics in history, music, technology, medicine and other disciplines.

Students will learn Chinese language and culture easily. After evaluating their Chinese knowledge, students will be placed in either a beginning entry level or in a current grade level class.

MATH AND CRITICAL THINKING

Through Accelerated Math's technology, we create individualized practice assignments tailored at each child's level to challenge students as they improve their math skills. We provide weekly feedback on your child's progress.

ENGLISH

(READING COMPREHENSION & GRAMMAR)

This program will enhance and expand language arts concepts taught during the school year. We primarily use grade appropriate language worksheets from well-known publishers to help students meet and exceed state standards.

Workshops

Throughout the school year, we offers a variety of educational workshops for additional fees. Both current after school students and outside students are welcome to attend any of these workshops. Each weekly workshop is offered in 55 minute session.

These workshops have limited enrollment and seats are available on a first-come first-serve basis. Some typical workshops may include:

- Math Champions: Grades 1, 2, 3-4, 4-5, and 6-8
- Chess Club (by Berkeley Chess School): Grades 1-5
- Creative Drawing Class: Grades K-5
- LEGO Adventures (by Snapology): Grades K-6
- Public Speaking (by Gurus Education): Grades 1-8

Please see our website for specific details, prices, and times.

Private Tutoring

Throughout the school year, we provide private one-on-one tutoring in a variety of school subjects, including general math, algebra, and language arts. The cost is \$40 (elementary students), \$45 (middle school students) and \$50 (high school students) per 55 minutes session. Dates and times are determined by the student's family and tutor.

To REGISTER

Complete the registration form online at beebestlearning.com.

Or, come into our office and a staff member will help you with the online registration process.
